

Health & Safety Policy Statement

Health and Safety is everyone's responsibility. Working safely is a condition of our employment.

The Company recognises its statutory duties under the Health and Safety at Work Act 1974 and the Management of Health and Safety at Work Regulations 1999 and accompanying legislation.

Safety affects everything we do. Whatever our job we each have a constant duty to ensure that we do not harm our colleagues, customers, contractors or the general public, in other words anyone who is affected by our activities.

The Company shall ensure that the requirements of the Health and Safety at Work Act 1974 and all relevant regulations and Acops are adhered to, plus all necessary Risk assessments, so far as is reasonably practicable, shall be complied with by all staff working on or about the working environment.

We must all do our best to create a climate in which we are always alert to risk and to ensure that proper safety measures are taken to control that risk. We must keep the Health and Safety of people in the forefront of all our minds and activities. We must also protect property and the environment in which we work.

The Directors of Newspace Containers readily recognise and accept our Health and Safety responsibilities. We wish to state our policy and intentions as clearly as possible:

- To provide and maintain safe and healthy working conditions, equipment, general environment and systems of work for all our employees and contractors and anyone else affected by our activities
- To provide such information, instruction, training and supervision to enable our employees and contractors to carry out this policy
- To identify and assess the risks in the workplace and put in place effective measures to eliminate risks or reduce them to an acceptable level
- To provide the necessary commitment, co-operation, consultation, resources and organisation to enable all of us to meet the high standards we expect of ourselves
- To comply with all current legislation, standards and our clients requirements, and to monitor our performance against those standards
- To strive for continuous safety improvement in all our activities
- To ensure that we keep a clear focus on safety as the company grows

Most importantly the Directors aim to put the safety of employees, customers, contractors and the general public above any other considerations at all times. When there is a conflict of interest it is our responsibility to resolve that conflict by putting Safety first.

This Policy has been prepared in support of the Health and Safety at Work Act 1974 and applies to all Directors, Managers, Employees and Visitors of the Company.

This Safety Policy Statement is supported by a Safety organisation and general arrangements that details how the company is organised and manages Health and Safety. The Statement is reviewed on at least an annual basis and more frequently if circumstances require it.

Paul Scott
